## OUR HISTORY

Garex Industries is an American woman-owned business providing wholesale supply of chemical solutions to the North American market since 2013.

Our roots extend back to 1978 when Garex Engineering was founded as a family business as the first chemical plant in Turkey to manufacture zinc and chromium oxide.

Since then, Garex has partnered with industry-leading manufacturers to provide global solutions where there is demand. Our partner facilities extend across 30 acres of land, located 80 miles outside of Istanbul, efficiently serving more than 50 industries.

## **OUR** CONNECTIONS

All of our products today are made in Turkey and distributed through Garex directly to our clientele.

## ABOUT US

- We, along with our partners, are market leaders in more than 10 developing sectors with a technical team of researchers with academic degrees, including Ph.D. level senior executives.
- We are main suppliers to global corporations that are market leaders in their fields, with long term agreements.
- Our facilities have on-site dedicated engineering and contractor teams for start-up and capacity increase projects.
- Our partners hold the leading positions for product development and supply in the European market.
- Since June 2013, new Research and Development and a pilot plant have been established to better serve our clients and all of our expansion.

## **PARTNER** COLLABORATIONS

2001 - Entered production agreement with Albermale Corporation for production of nickel based salts that are used as catalyst for oil drilling and energy conversion industries.

2005 - Our supplier aquired POLIFEN, a local sanitary acrylic sheet and solid surface countertops manufacturer.

2006 - Signed production agreement with REICHHOLD; an American company which is one of the largest unsaturated resin producers.

2009 - POLIFEN and DUPONT-Corian signed a collaboration and joint development agreement on production of solid surface countertops. Their plant is the unique production plant of Corian in E.U., Middle East and Africa Regions.

2016 - A JV was formed with EUCLID CHEMICALS on construction chemicals production for tunnelling, mining and concrete admixtures.

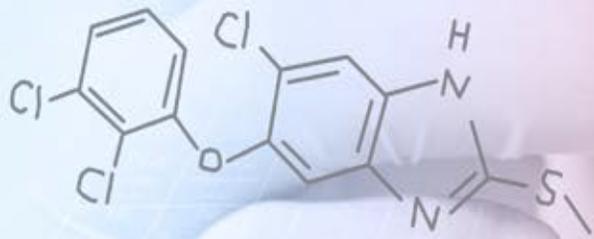

The Dupont logo features the word "DUPONT" in a bold, red, sans-serif font. The letters are slightly shadowed and appear to be floating above a dark, circular background. The logo is flanked by two red, stylized arrowheads pointing outwards.The Reichhold logo consists of the word "REICHHOLD" in a bold, black, sans-serif font. The text is underlined with a thick blue horizontal line.
